DATE: 7 January 13, 1969

FROM : INR/DDC/CS - Lawson A. Moyer, Jr. *LM*

SUBJECT: Briefing Material for Foreign Service Inspectors

A request has been received from the Foreign Service Inspector General for briefing material related to the forthcoming inspection of the Foreign Service post(s) listed below. Experience has shown that this material is most useful to the Inspectors when it concentrates on major problems. Only in exceptional circumstances should the Inspectors be asked to collect information which can be obtained directly from the post through normal channels of communication or to verify the post's compliance with special instructions or requests which you originated.

Since the inspectors frequently visit posts long after their departure from Washington, the material should not be prepared on the assumption that the Inspectors will recall in intimate detail the information provided them in the course of any oral briefings.

It is necessary to submit the material promptly on or before the requested due date to give ample time for the inspectors to review the information and suggestions and, to allow time for the Staff to assemble the material and to meet the Pouch Schedule to the Post. The briefing material is held in confidence and is not made available to the post.

The material should be sent in three copies, original and two carbons to INR/DDC/CS/Miss Taylor, Room 6638, and should not be classified above CONFIDENTIAL, if possible. Material for each post should be on a separate page or pages so that it can easily be detached from that pertaining to other posts in the same country. Please refer questions to ext. 3121.

Your cooperation is appreciated. State Dept. review completed

U.S.S.R., MOSCOW

During the past year the Graphics Coordinator at Moscow has made numerous and timely contributions to the Graphics Program. In view of the restrictions on photography in the U.S.S.R., requirements to the Embassy have been general in nature. Responses to these requirements, at the discretion of the Coordinator, have made a substantial contribution to the Department's files. No problems are anticipated in the forthcoming year.
