MEMORANDUM FOR THE RECORD

SUBJECT: [REDACTED]

1. [REDACTED] of the Office of Security, extension 2476, advised today that the Appeal Board in the Veterans Administration had made a final review of the case and had rejected the request for additional compensation.

2. [REDACTED] had been furnished information from the VA file which showed that [REDACTED] had told more than was prudent about his activities within the Agency to a VA social worker who had visited him at one point. As a result of this, the Office of Security is going to send a representative to talk to [REDACTED] and caution him about the requirements of not furnishing detailed information as to his activities while employed by us. As a result of this proposed visit, it is anticipated that we will not have further correspondence with [REDACTED]. I suggested that the representative also advise that the Agency has done all that it possibly can to help him, and much more than would normally be done for one of our employees.

4. Inasmuch as the file will be forwarded back to the Chicago Regional Office of the VA, it may be two or three weeks before [REDACTED] becomes aware of the fact that his appeal has not been favorably acted upon.
