MEMORANDUM FOR: Chief, Technical Services Division

THROUGH : Assistant Deputy Director for Plans

Seymour:

I know that you have been having some problems with your MKULTRA projects. I do not know what all these problems are, but if our recent experience with Panoramic Research, Inc., is a fair example I think that you might be well advised to recommend that the scope of this project be greatly reduced, and you might even want to consider its elimination. Certainly as I see it, the contracts with Panoramic Research, Inc., could have been handled just as easily without resorting to MKULTRA. If you feel so inclined, I can assure you that we will cooperate in every way to accomplish your objectives with due consideration for security and the special nature and sensitivity of your projects.

For your information and possibly to refresh your memory, I attach hereto a summary sheet showing the approval history of this project. If my information is correct, it was last approved in 1955--a long time ago. I am making this suggestion with the sincere belief that we can provide you the service and with the hope that it might save both of us considerable headaches in trying to clean up projects such as Panoramic Research, Inc., which for one reason or another have gotten off the rails.

Signed

L. K. White
