Deputy Assistant Director, OBI

NIS Gazetteers

In connection with the attached request from Mr. Paul L. Berry of the Library of Congress, it will be necessary to retain the statement "For Official Use Only" on all NIS Gazetteers. These Gazetteers are produced for intelligence purposes and must be restricted to official use of government activities. However, arrangements were made during the past year for the Board of Geographic Names to produce Gazetteers for sale by the Superintendent of Documents, U.S. Government. These Gazetteers are all based on data developed for the NIS Gazetteers, but there is no identification with the NIS Program in the ones that are placed on public sale. Thus far about twelve Gazetteers have been reproduced by the Board on Geographic Names and placed on sale by the Superintendent of Documents. A list of these is attached.
