MEMORANDUM FOR: Director of Training

FROM : Chief, Plans and Policy

SUBJECT : Weekly Activities Report

**I. COMPLETED PROJECTS**

**1. Department of the Army Request for OTR Catalog of Courses**

On 31 May OCR was provided with the basis of a reply to the request by the Department of the Army for two copies of the OTR Catalog of Courses. On 5 June OCR dispatched a reply substantially similar to the one we provided, informing the Army that course lists, schedules and quotas for all CIA training courses open to military and civilian personnel of the IAC agencies will be made available to the Director of Training, Office of the Assistant Chief of Staff, Intelligence, and, further, that the OTR Catalog of Courses is published for CIA internal use only and not for dissemination outside the Agency.

**2. Analysis of Resignees Who Have Received External Training**

The draft report was reorganized to consist of a single page of narration and two charts, one showing the breakdown of resignees by grade, component, type of training, length of service in the Agency, length of service to the Agency after external training and reason for resignation. A second chart lists similar data for 14 individuals who resigned prior to serving the Agency a period of time equivalent to three times the duration of the training and who resigned either to enter private industry, to continue their education or to re-enter the teaching profession. This latter group represents those who might have been required to reimburse the Agency for a portion of the costs of training had there been in effect a training agreement similar to the one which will be incorporated into the revision of Agency Regulation [redacted] and which is currently provided for in a bill under consideration by this Congress which grants authority to all agencies of the Government authorizing the use of external training facilities.
