Transmittal Memorandum No. 1

TO THE HEADS OF EXECUTIVE DEPARTMENTS AND ESTABLISHMENTS

SUBJECT: Regulations prescribing revised commuted rates of reimbursement for transportation and temporary storage expenses for household goods and personal effects of civilian officers and employees upon transfer of official station within the continental United States

1. Purpose. The regulations and commuted rates prescribed in Bureau of the Budget Circular No. A-37 dated December 30, 1957 (which amended the regulations issued under Executive Order No. 9805 of November 25, 1946), are hereby supplemented and amended as provided in Attachment A, in order to:

- a. Prescribe regulations, under the act of February 12, 1958 (5 U. S. C. 73b-1(b)), for payment of an allowance to any civilian officer or employee for transportation of a house trailer or mobile dwelling for use as a residence upon transfer of official station, including new appointees to positions in Alaska under section 4 of Executive Order No. 9778 of September 10, 1946.
- b. Amend commuted rates for transportation of household goods and personal effects by (1) revisions in the minimum weight provisions and (2) reductions in the rates because of repeal of the tax on transportation of property (P.L. 85-475).
- c. Amend commuted rates for temporary storage of household goods and personal effects by reassignment of some of the States to different rate areas.

2. Effective date. The amendment under 1a above shall apply to any case in which the transfer of official station was or is authorized on or after February 12, 1958, and the transportation of the house trailer or mobile dwelling was or is authorized or approved on or after such date. The amendments under 1b and c above shall apply to any case in which the employee pays the carrier on or after August 1, 1958.

AMENDMENTS TO REGULATIONS GOVERNING PAYMENT OF
TRAVEL AND TRANSPORTATION EXPENSES OF CIVILIAN OFFICERS
AND EMPLOYEES OF THE UNITED STATES WHEN TRANSFERRED
FROM ONE OFFICIAL STATION TO ANOTHER FOR PERMANENT DUTY

1. House trailers

a. Section 1 is amended by adding the following new subsections:

(f) "House trailer" means all types of mobile dwellings constructed for use as a residence and designed to be moved overland, either self-propelled or by towing.

(g) "Commercial hauler" means an individual, firm, or organization whose principal business consists of hauling or transporting property.

b. The following new title and sections are added:

Title IX - Transportation of house trailers

Section 30. Eligibility

- (a) An employee who is entitled to transportation of his household goods and personal effects under Titles I and II, III, VII, or VIII of these regulations shall, in lieu of such transportation, be entitled to payment of a mileage allowance for the transportation of a house trailer for use as a residence, when authorized or approved in the manner set forth in section 4.
- (b) The payment applies only to transportation within and between any of the continental United States, including Alaska. Where the point of origin or destination, or both, is some other place, transportation of the house trailer for the balance of the distance is at the expense of the employee. However, transportation of the household goods and personal effects for the balance of the distance may be allowed at Government expense under Titles I and III, VII, or VIII.

- (c) The payment is in addition to payment of per diem and transportation expenses of the employee, and transportation expenses of his immediate family, as provided in sections 2 and 3.
- (d) The Act does not apply to transportation in connection with temporary duty travel.

Section 31. Mileage Allowance

(a) Distance

- (1) Where points of origin and destination are within the continental United States, including Alaska, the allowable distance between such points shall be the standard highway mileage allowed under section 3.5b(1) of the Standardized Government Travel Regulations in computing the mileage payment for a privately owned automobile.
- (2) Where point of origin or destination, or both, is at some other place, the allowable distance shall be determined under (1) above but shall be limited to the distance the house trailer is transported within or between any of the continental United States, including Alaska.
- (3) In determining distance under (1) or (2) above, the standard highway mileage shall be used even though all or part of the transportation is over water or by railroad. Where point of origin or destination is an island of the continental United States, including Alaska, the statute mileage to or from the usual place of arrival or departure on the mainland shall also be allowed except that when such mileage is included in the standard highway mileage guides the mileage shown therein shall be used.

(b) Rate. The rate of payment to the employee shall be -

- (1) 20 cents per mile where the house trailer is transported by commercial hauler, or
- (2) 11 cents per mile where the house trailer is transported by any other means, including towing by a privately owned vehicle. This payment is in addition to the payment of the mileage allowance for transportation of a privately owned vehicle.
- (3) If a house trailer is transported partly by commercial hauler and partly by other means within or between any of the continental United States, including Alaska, and the total distance traveled therein is greater than that allowable under section 3.5b(1) of the Standardized Government

Travel Regulations, the percent of each mode of transportation to the total distance traveled therein shall be determined and applied to the allowable mileage to determine the mileage payable at each rate of payment.

- (4) The house trailer rates provided herein include all costs of ferry fares and bridge, road, and tunnel tolls for the house trailer and no additional claims for such charges may be made.
- (c) Voucher support. An employee in submitting a voucher for payment of the allowance shall include, or attach, his certification that the house trailer was transported for use as a residence. Where the house trailer is transported by commercial hauler he shall also submit the commercial hauler's receipted bill or a copy thereof certified by the employee as a true copy.

Section 32. Advance of funds

An advance of funds may be allowed an employee for the transportation of a house trailer under the same safeguards as provided in section 13 of the Standardized Government Travel Regulations. The amount of the advance shall not exceed the estimated amount allowable to the employee under section 31.

2. Household goods and personal effects

- a. Section 12(a) is amended by revising the next to the last sentence to read:

In case the weight of the household goods and personal effects transported is less than the minimum weight chargeable under applicable tariffs, the employee shall be reimbursed on the basis of the minimum weight charged instead of the actual weight transported. The minimum weight is 500 pounds except that for transportation between any of the States of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming, and El Paso, Texas, including a 25-mile radius, a minimum weight of 1,000 pounds applies if the point of origin or destination is more than five miles from specified highways.

- b. Schedule A is revised to read as shown on the following pages:

(No. A-37)

**SCHEDULE A - COMMUTED RATES FOR TRANSPORTATION AND TEMPORARY
STORAGE WITHIN THE CONTINENTAL UNITED STATES**

Over 500 miles, apply rates in Table 2 below.

Note: The tariffs approved by the Interstate Commerce Commission include minimum weight provisions to insure that, in instances where the charges computed in one weight bracket exceed those computed for the same mileage in the next higher bracket, the lower rate is used. The breakpoint columns are designed as a convenience in determining the proper amount of reimbursement in such instances, as explained in the following footnotes.

* The rate per 100 pounds applicable for the transportation of 999 pounds net, or less, for the applicable mileage column (a), is that shown in column (b), unless the net weight equals or exceeds the number of pounds shown in column (c) for the applicable mileage; in the latter case the applicable rate is that shown in column (d) for the same mileage, and the applicable weight is the minimum hundredweight of that column, instead of the actual weight of the goods transported.

** In the case of transportation of household goods weighing 1,000 to 1,999 pounds net, the amount of reimbursement is computed by using columns (d), (e), and (f) in the same manner as described above for columns (b), (c), and (d).

*** In the case of transportation of household goods weighing 2,000 to 3,999 pounds net, the amount of reimbursement is computed by using columns (f), (g), and (h) in the same manner as described above for columns (b), (c), and (d).

**** In the case of transportation of household goods weighing 4,000 to 7,000 pounds net, the amount of reimbursement is the product of the applicable rate in column (h) for the applicable mileage, multiplied by the number of hundredweight transported.

To illustrate: The amount of reimbursement for the transportation of 740 pounds net, for 100 miles is computed by using the applicable rate in column (d), which is \$6.80 (because 740 pounds "equals or exceeds" the applicable column (c) weight, which is 740 pounds) and the minimum hundredweight of column (d), which is 10. The amount so computed is \$68.00. The amount of reimbursement for the transportation of 739 pounds net for a distance of 100 miles is the product of the applicable rate in column (b), which is \$9.20 (because 739 pounds does not "equal or exceed" the applicable weight in column (c), which is 740 pounds), multiplied by the net hundredweight transported, which is 7.39. The amount so computed is \$67.99.

TABLE 2

The following commuted rates per 100 pounds, subject to the minimum weight provision in section 12(a), apply to transportation of household goods and personal effects originating at places within the continental United States, excluding Alaska, other than those in the area described under Table 1. They also apply to transportation of more than 500 miles originating in the area described in Table 1. The breakpoint columns are to be used in the same manner as explained in the note in Table 1.
