SECRET

25X1A

4. [REDACTED] the Acting DD/P and the Director briefed the Rivers Committee. This went very well. The Committee appears to want more frequent briefings.

25X1A

5. [REDACTED] briefed Admiral Taylor for 2-1/2 hours. The DDP Division and Staff Chiefs are next in line, and Admiral Taylor will give them a full three days - Tuesday, Wednesday and Thursday of the week of 17 October. The Admiral was apparently most interested in the senior staffs, their roles and conduct of their activities. Tom stated that the Admiral was most relaxed and informal and he did not believe that any of the Division Chiefs would have to do a great deal of preparation for this briefing. This isn't, however, for personnel and money figures.

6. The Managerial Grid was given a strong plug by [REDACTED] He 25X1A asked for a show of hands of those who have attended and it appeared from a casual observation that maybe a bit more than half had not attended this course.

7. Tom asked all present to read very carefully his memo of how to prepare papers for the Director. He hoped that they would all read it with care because he would like to spare them a session with the Director going over one of their papers.

the presentations of 303 Committee papers, has asked that advance copies of our papers not be made available in the Pentagon because this interferes with his very fine coordinating efforts with Deputy Secretary Vance.

25X1A 9. [REDACTED] has asked, and [REDACTED] agrees, to see returning 25X1A
Chiefs of Station, and Tom thinks too perhaps departing COS's should see him.

10. Tom had a budget and personnel session with Col. White which Col. White had before the fact described as an unhappy session, at which time he would announce manpower distribution.

25X1A [REDACTED] for additional reporting. Gerry stated that we would probably base our ceiling figures on the 20 September

25X1A letter from [REDACTED] Gerry said there might be some exceptions to these figures so far as the Southeast Asia and China problems are concerned, and it will be up to the Director to decide what exceptions should be made. It is possible, according to Gerry, that the Agency may lose as many as

25X9 [REDACTED] positions. Gerry went on to talk about contract personnel and the

25X1A fact that a committee, which is headed by [REDACTED] will be studying

25X1A termination and provisions for retirement. [REDACTED] will review all contracts that are three years old and they are considering some retirement or post-retirement plan which could include (a) a terminal payment,

(b) a paid-up annuity, (c) or a joint purchase annuity. This is apparently related to A and B type contractees.

25X1A

11. [REDACTED] passed out three 15-year awards. [REDACTED] was one of the recipients. 25X1A

12. There was much discussion of what should be passed to the Clark Committee and also what should be discussed with the representative of the BOB, Convisser. It was decided that Convisser would be briefed in the "tank" and not make a projected trip to TSD.

25X1A

13. During off-duty hours [REDACTED] will be the point of contact for queries by the State Department on our operators abroad who may have come to the attention of the press or been PNG'd, or some other type problem. It will be [REDACTED] responsibility to pass this on to Divisions in order that the appropriate reactions may be made. This is also a part of a program to keep the Night Duty Officers properly oriented and also to help them. 25X1A
