

27 November 1973

MEMORANDUM FOR: Director of Training
SUBJECT : Books for Systems Dynamics Course
REFERENCE : Memo to DTR, dtd. 7 Nov 73, subj.: "Approval
to Conduct Systems Dynamics Course"

Attached are requisitions (3) for books for student retention in the Systems Dynamics course to be given 7-25 January 1974. Principles of Systems is a workbook which the students will fill in-- and should retain as a reference. The other two books should be retained by students to assist them in subsequent use of the Systems Dynamics methodology: The Manual provides the information needed to write DYNAMO equations, and the other book contains a variety of models which will be useful as building blocks when modeling problems with which the students will be concerned later.

TO 1: The rather high cost here (through not directly to OTR) plus the retention of the book by the graduate prompted the request that Ray S. should prepare a justification - which is attached. I agree with [redacted] approval. EW
