Lieutenant General J. K. Woolnough, USA  
Deputy Chief of Staff for Personnel  
Department of the Army  
Washington, D. C. 20310

Dear General Woolnough,

Since 1952, the Central Intelligence Agency has had the good fortune to be invited to nominate candidates for the Army War College at Carlisle, Pennsylvania. From 1954 through 1959 we had two representatives in each class. Those Agency employees selected for the College have been most enthusiastic about their experience. We have come to regard the Army War College as an ideal training opportunity for outstanding employees who have a bright future in the Agency.

Competition is keen within the Agency to fill our quota of one. For this reason we wish to request that consideration be given to increasing this Agency's representation to two for each class at the College.

Student evaluations from the College indicate that our representatives make a marked contribution to the program. I can assure you that only those candidates who can continue to make such a contribution will be nominated to fill the quota offered us.

I would very much appreciate your favorable consideration of our request.

Sincerely,

15/  
L. K. White  
Executive Director
