MEMORANDUM FOR: Chairman, Training Selection Board

I addressed the student body at the Armed Forces Staff College today and found them keenly interested in the Agency and the Intelligence Community in general.

I noted that, of the three Agency students in this course, two are from the Office of Research and Reports and one is from the Office of Scientific Intelligence. In discussing the course with them, they were very enthusiastic about it but indicated that they thought there should be some representation from components other than those engaged in the production of intelligence. While this should certainly not be an overriding criterion, I do think it would be worthwhile to attempt to have a balanced representation in each course so that our students are knowledgeable of the entire Agency rather than only a segment of it.

Would you please ensure that this point is given appropriate consideration when selecting our representation for this course in the future.
