1. [redacted] EUR/LOG, advised [redacted] on 19 September 1969 that he had found one copy of the warehouse drawings in his file. These appear to be one set of black and white prints. They are available should we need them.

2. Art - If we don't have a reproduceable copy, or can't find a reproduceable that may have been made earlier, we can still have a set of reproduceables made from those [redacted] now has. Would you please see that we end up with a reproduceable set in our files?
