INARCS AMMUNITION STORAGE, HUNGARY

This report is a partial answer to DIA requirement DIAXX 63-84, to verify the location of selected military installations in Hungary and to perform a photo analysis of these installations to determine function, number and dimensions of buildings, to estimate troop capacity, to identify and describe related training areas and facilities, and to confirm or negate ammunition and POL storage.

25X1D

TALENT photography of [REDACTED] was used for identification and mensuration of buildings. KEYHOLE photography of [REDACTED] indicates that the boundaries and the vegetation pattern of the installation are probably unchanged from [REDACTED] coverage; however, poor image quality precludes negation or confirmation of buildings identified of [REDACTED]

25X1D

25X1D

The installation described below is shown in Figure 1.

Coordinates: 47-16-40N 019-22-40E (UTM 41UCT767372)

BE No: none

Troop capacity: not applicable

This rail-served, double-fenced ammunition storage area located 1.5 miles east of Inarcs covers 210 acres and contains:

one probable administration building, 70 by 50 feet, with a total of 3,500 square feet of floor space

30 widely dispersed ammunition storage buildings, ranging from 70 by 35 to 35 by 35 feet, a total of 73,325 square feet of floor space.
