#### PREFACE

This Mission Coverage Index (MCI) lists the intelligence targets imaged on the photography of this mission. Items in the MCI are arranged in three sections:

Section I provides short descriptions for newly identified targets and previously reported targets showing change, and also provides order of battle information.

Section II provides a listing of those targets which reflect no apparent change in facilities from the most adequate previous description. The MCI in which this description appears is designated by the appropriate mission number, prefixed by the letters "NAC" and appearing as the last entry on the photo reference line. Military installations where there is no significant change in facilities and where no order of battle can be determined are listed under this section.

Section III provides a listing of those targets which could be identified but not interpreted.

Targets in each of the three sections are arranged 1) by country, 2) within the country according to subject, 3) within the subject by WAC area, and 4) within the WAC area by geographic coordinates in ascending order. An explanation of column headings and photo references used in presenting the information is contained in the appendix. The map base used (when available) for the derivation of coordinates in this MCI is the latest edition of the US Air Target Chart, Series 200.

For the convenience of the user, an index to all targets is included following Section III. Targets in the index are arranged alphabetically within a country.

The user of this MCI is cautioned that the scan of photography was accomplished in a relatively short time and often without the aid of precise analytical and mensural techniques commonly employed in detailed photographic analysis. Consequently, although the information presented herein is essentially accurate, additional, detailed analysis may somewhat alter portions of the information.

### ADDENDUM

Additional analysis following completion of the scan for this mission reveals that the installations at Gornyy Balykley  and Pallasovka (NPIC  on page 214 of this publication are probable electronics sites. These sites have a configuration similar to that of a tracking site located west of Launch Complex G (48-24-15N 46-14-10E) at the Kapustin Yar/Vladimirovka Missile Test Center.

SECURED RECTANGULAR AREA CONTAINS A CENTRAL CONTROL BUILDING, 4 SUPPORT BUILDINGS, AND NUMEROUS PROBABLE MASTS.

MAKAT AREA, INTERFEROMETER STATION  
25 NM NE OF MAKAT.

SITE CONTAINS INTERFEROMETER AND SUPPORT AREA AND TWO 3,400 X 70 FT GRADED EARTH LANDING STRIPS. SMALL RECTANGULAR SECURED AREA WITHIN SUPPORT AREA CONTAINS 2 PROBABLE DOMES. THREE CLOSED-CIRCUIT TRACKED-VEHICLE DRIVER TRAINING COURSES WEST OF THE SUPPORT AREA AND EACH HAS SEVERAL UNIDENTIFIED OBJECTS IN ITS CENTER. THE NORTHERNMOST DRIVER TRAINING COURSE HAS 4 POSSIBLE TANKS IN ITS CENTER.

ODESSA KRUG DF SITE 1  
APPROXIMATELY 8 NM WSW OF ODESSA.  
COMPLETED KRUG SITE.

ODESSA KRUG DF SITE 2  
7.5 NM NW OF ODESSA.  
COMPLETED KRUG SITE.

AKDZHAR AREA, HF COMMUNICATIONS SITE  
1.6 NM NE OF AKDZHAR AND 22 NM NE OF DZHAMBUL.  
SECURED HF COMMUNICATIONS SITE, 4,900 X 4,100 FT, CONTAINS NUMEROUS DAY-NIGHT DOUBLE RHOMBICS AND AT LEAST 15 BUILDINGS (7

RUNWAY, SERVICEABLE.  
AIRCRAFT -- NONE OBSERVED.

RAVNETS AIRFIELD  
NO APPARENT CHANGE  
AIRCRAFT -- 34 SWEEP-WING FIGHTERS, 8  
PROBABLE SMALL SWEEP-WING, AND 2 SMALL  
STRAIGHT-WING.

VARNA/TOPOLI AIRFIELD  
NO APPARENT CHANGE  
AIRCRAFT -- 2 CAT/CUB, 2 COACH/CRATE, AND  
10 SMALL POSSIBLE AIRCRAFT.

TOLBUKHIN AIRFIELD  
NO APPARENT CHANGE  
AIRCRAFT -- 10 UNIDENTIFIED AND 12  
PROBABLE AIRCRAFT.

MILITARY INSTALLATIONS

SOZOPOL NAVAL BASE  
NO APPARENT CHANGE  
VESSELS -- 4 UNIDENTIFIED VESSELS.

## SECTION II

THIS SECTION PROVIDES A LISTING OF THOSE TARGETS WHICH REFLECT NO APPARENT CHANGE IN FACILITIES FROM THE MOST ADEQUATE PREVIOUS DESCRIPTION. THE MCI IN WHICH THIS DESCRIPTION APPEARS IS DESIGNATED BY THE APPROPRIATE MISSION NUMBER, PREFIXED BY THE LETTERS "NAC" AND APPEARING AS THE LAST ENTRY ON THE PHOTO REFERENCE LINE. MILITARY INSTALLATIONS WHERE THERE IS NO SIGNIFICANT CHANGE IN FACILITIES AND WHERE NO ORDER OF BATTLE CAN BE DETERMINED ARE LISTED UNDER THIS SECTION.

### APPENDIX

#### EXPLANATION OF COLUMN HEADINGS AND PHOTO REFERENCES

##### COLUMN HEADINGS

##### PHOTO REFERENCES

Target--This column contains the name of the target. If the actual name is unknown, a name is assigned consisting of the name of the city or town closest to the target followed by a description of the target's function. Where appropriate, the target name is followed by a capsule description. Target numbers assigned by the Committee on Overhead Reconnaissance (COMOR), when available, are listed directly above the photo reference data.

Coordinates--Coordinates are referenced to the southwest corner of the minute square. When the target covers a wide area, coordinates are given for its approximate center.

WAC--This column provides the number for the World Aeronautical Chart covering the target area.

Target Numbers--This column is divided into two subcolumns. The first subcolumn lists, when known, the Bombing Encyclopedia (BE) number assigned to the target. The second subcolumn lists the target number assigned by NPIC. Target numbers, when used to reference an item, are prefixed by the WAC number of the chart on which the target appears.

The photo reference line, or lines, provides the pass number, frame numbers, and best-frame grid (Universal Grid No 1, February 1964) coordinates for the target in question. In addition, conditions which affect the appearance of the target on photography are given. For example: 40D FR F/20 (10-12) & A/26 C.

In this case, 40D designates the photographic pass number. FR F/20 & A/26 are frame numbers which cover the target, F designating a forward frame and A designating an aft frame. The grid coordinates (10-12) refer to the frame immediately preceding and give x and y coordinates for locating the target on that frame. C indicates that the target was clear. Symbols used to indicate conditions which affect the appearance of the target on the photography are as follows: C (clear); SC (scattered cloud cover); HC (heavy cloud cover); H (haze); CS (cloud shadow); SD (semi-darkness); O (obliquity); S (snow); and, PQ (poor image quality).
