Dear Sir:

It is requested that permission be granted to use two outside sources for services in illustration and drafting relative to the training manual "Collection and Field Mensuration Techniques for Ground Photography." The personnel are neither aware nor have they been informed of the source of the project.

Service No. 1 --

25X1A

This company will prepare perspective illustrations (constructed roughs, at this stage) depicting the relationship of photographic geometry to object space. The illustrations will incorporate all the elements of the finished product, including the use of color, shaded planes, etc.

The services will be applied to approximately 12 illustrations at [redacted] per illustration, for an approximate total of [redacted]

Service No. 2 --

25X1A

25X1A

[redacted] is a draftsman's mate, second class, working full time as a draftsman at the U. S. Naval Photographic Interpretation Center, 2301 Suitland Road, Suitland, Maryland.

He is a skilled draftsman and is highly familiar with the perspective and geometrical constructions related to photography. He will work part-time for us in his home at the above address. He has the facilities, drafting table and instruments, to perform the kind of work requested.

He will prepare "smooth roughs" of manual page layouts depicting the various graphical construction details of working with a photograph. The
