Subject: Proposals for Dual-Viewing Microstereoscope

Reference: U. S. Government Request for Proposal [REDACTED]
dated 1 April 1964

STATINTL

1. In response to the referenced request for proposal, [REDACTED] is pleased to submit herewith proposals for a Dual-Viewing Microstereoscope. [REDACTED] technical approach for the performance of this prospective program is delineated in the Technical Proposal, Enclosure 1 hereto.

STATINTL

2. [REDACTED] is submitting two proposals for your review. The original, Section 2 of Enclosure 1, has been prepared on a CPFF basis. This CPFF bid, which is responsive to the requirements of the referenced request for proposal in all respects, is [REDACTED]. As an alternative, the [REDACTED] Technical Proposal, Section 3, describes the particular characteristics of another viewing microstereoscope which fulfills many of your basic requirements and can be procured on a Fixed Price basis in the amount of [REDACTED]. In view of the nature of the performance involved, [REDACTED] believes that the above type contracts are appropriate for the intended procurement. In the event, however, your office determines that some form of incentive provision should be included, [REDACTED] will be pleased to discuss these matters with you in detail as they correlate to the technical requirements. Cost breakdowns in support of the above dollar amounts are included for your evaluation as Enclosures 2.0 and 2.1 and are based upon the Conditions defined in Enclosure 3.

3. [REDACTED] primary interest is the development, design and production of systems and equipment for utilization in the Reconnaissance Community. Our experience and objectives are in this field of endeavor. These particular proposals for each of the configurations of the Dual-Viewing Microstereoscope are based upon proprietary techniques and features developed by [REDACTED] as part of a corporate sponsored research project. For this reason, these proposals are forwarded for review by appropriate Government personnel only and disclosure of the contents of these proposals to any other party must be restricted unless prior agreement is expressed by [REDACTED] in writing.
