SUBJECT: Investigation of Polarizing Panels to Cover Ceiling Light Fixtures.				
<p>I checked out the polarized light panel mounted over conventional fluorescent light fixtures in the Library of Congress Annex. They are in the offices and working areas (not in the corridors) on the first floor. This is the floor above the ground floor. I talked to several people who worked in the offices about the new lights. (They used to have rather old-fashioned overhead lights not comparable to the fluorescent fixtures we now have in [redacted]). The opinions seemed to vary from indifference to enthusiasm for the new lights. The polarized light fixtures seem to cast a somewhat more diffused, softer light, but to tell the truth the difference between the library's overhead fluorescent lights and ours seems rather marginal to me.</p>				
<p>[redacted]</p>				
Attached is the literature from the manufacturer. [redacted]

PRIORITY _____ DATE REQUIRED 15 October 1965

1. BACKGROUND INFORMATION:

The work requested is in support of a departmental: Photo interpretation proj.;
 Non-photo interpretation project. It will result in: Hard copy report;
 Internal report (memo); Basic service only.

Project description: Investigation of Polarized Lighting

2. SPECIFIC SUPPORT/SERVICE REQUESTED: Support from NPIC will probably consist of:
 Photographic; Reproduction; Mensuration; Graphics; ADP; Editing;
 Other (explain below) -- (Include statement as to estimated amount of work required
of support component(s); i.e., number of contact prints, enlargements, boards, etc.)

This project covers an investigation of polarized lighting for PI spaces.
It will result in recommendations to IAD & PAG and is in direct reply to a
requirement of IAD.

3. URGENCY JUSTIFICATION: (If immediate support is required a statement of justification
must be made on this form.)
