Dear John:

Enclosed you will find two copies of a memo which outlines the schedule to be followed in completing the report on the Marker Study for the E80 Coordinatograph.

I am sorry we are behind the schedule that I previously outlined to you on the phone, but the work commitments for everyone involved have been very great, with the resulting slippage in completion dates. The enclosed are firm, however, and you can count on receiving your copies of the report the week of March 6.

STAT

Very truly yours,

  
Staff Engineer
