As we discussed at the meeting in your office on 5 August
1969, the Agency would certainly appreciate your reviewing
the proposed bidding and construction schedules for these
projects to ensure that the following required construction
completion dates are met:

- [REDACTED]
- 15 March 1970
 - 15 November 1969

If I or any member of my staff can assist in any way in
meeting what we recognize is a very tight schedule, please
let me know.

Please keep me advised as to the schedule finally es-
tablished for contract award and construction of these two
projects, especially if you should conclude that either date
may not be met.

Sincerely,

STAT
