Deputy Director, NPIC   16 August 1961

Operations Officer, NPIC

PAS Report

Info you suggested for inclusion is contained in report. For: (1) "How many P. I. hours of effort required to complete all assigned projects" see column headed "Est. Man Hrs. to Complete" which is filled out as soon as best guess can be made; and, (2) "During the week of the report how many P.I. hours, logged on all these projects by CIA, by A, by AF and by Navy" is contained parenthetically under column headed "Assigned Analysts" which lists the cumulative number of man-hours devoted on each project to date by each analyst of each service; by deducting last week's figure one can determine this past week's effort.

At present, PAS can barely meet the deadline for the attached report -- to further complicate the reporting effort (until more personnel are assigned to PAS) is practically impossible.

O.K.?
