Acting Chief, Publications Division, NPIC

17 July 1961

Operations Officer, NPIC

CIA and Joint Report Covers

1. This memorandum confirms our conversation of this date dealing with the proper captioning of the covers and title pages of reports prepared by the CIA Detachment or by joint effort between any two or more components of the Center on projects initiated prior to the establishment of National Projects but which are published and disseminated by the NPIC.

2. It was agreed and subsequently approved by the Executive Director of NPIC that:

a. Reports prepared by the CIA Detachment would be identified as "Central Intelligence Agency Photographic Intelligence Reports"; bear the CIA seal, and show that such reports were "Published and Disseminated by National Photographic Interpretation Center".

b. Joint reports would be identified as "Joint Photographic Intelligence Reports", bear the seals of those components involved in its preparation, and show that such reports were "Published and Disseminated by National Photographic Interpretation Center".
