1. As you are aware, [redacted] has asked that he be permitted to send [redacted] over here to sit in on the current OAK and MCI and take the work sheets and add map references to them for punching. I further understand that you plan to incorporate these into a separate deck of cards so that we don't get fouled up and since [redacted] doesn't have additional space in the present cards.

2. I did not agree with this procedure and therefore made the following suggestions to Mr. Lundahl who has approved:

As soon as all of the daily OAKs are completed, a copy of all of the OAKs will be set aside. You are then to call [redacted] to come to NPIC to mark on these copies the map references she selects which you can then punch.

A copy of the proof on the MCI will be set aside for [redacted]. As soon as it is finished you are to call her and ask her to come to NPIC. She can then mark her map references directly on the proof for punching.

3. I advised [redacted] of this procedure and he agreed.
