2. Because of the unique position NPIC is in with regards to CIA and DOD, the wartime role of the Center is yet to be determined. It is my understanding that this question is currently under discussion at higher levels. Until we are given more definitive planning guidelines, it is not possible to prepare meaningful emergency plans.

3. If I can be of further assistance, or if you would care to discuss this matter further, I will be happy to meet with you at your convenience.
