NOTE: This report is published as an interim Basic Report with the concurrence of DIA.

	ved For Release 200002-007/0194/72
INSTALLATION:	Yin-chuan Headquarters Ning-hsia-hui-tsu Military District (Lan-chou MR), China
LOCATION:	The installation is on the eastern edge of Yin-chuan, approx- imately 215 nautical miles northeast of Lan-chou, in Ningsia- hui Autonomous Region, China.
CENERAL:	The installation is an administration/billeting complex which also contains a vehicle storage/service and two support areas. An adjoining area to the north contains light industry and quarters.
	With the exception of the development of the industrial area, the installation has been stable during the period covered by this report. No weapons or military equipment has been observ- ed at the installation.
	Although the installation is walled, breaches have been repeat- edly observed. In addition, track activity suggests a possible relationship between the industrial area and the installation. This possible relationship and the overall lack of security suggest that the installation may be non-military.
Accuracy Statem	ent:
	Square footage was deter- mined by the conversion factor: 1 square meter equals 10.76 square feet.
