MISSION COVERAGE SUMMARY

Mission B 1480
7 October 1958

Summary of Coverage

Mission B 1480, flown 7 October 1958, covered portions of southern Iran and the coast of West Pakistan including the Gwadar Peninsula which is Muscat and Oman territory. The mission covered the Ahwaz area, the skirts of the Zagros Mountains from Ahwaz southeast to Bandar Abbas, and the seacoast east to Karachi, as well as Kerman and Dezful in the interior of Iran.

Quality

Quality of target images for PI ranges from good to poor. Chief downgrading factors are poor resolution and obliquity.

Map References

USAF World Aeronautical Charts, 1:1,000,000
428 Mount Karbush
443 Mount Lalihzar
444 Dinar Mountains
548 Strait of Hormuz
549 Makran Range
550 Thar Desert

Categories

Information is listed by categories, as shown in the Table of Contents. Arrangement within categories is as follows: Airfields and Urban Areas-- alphabetically by (1) country and (2) city or installation; all other categories-- by (1) country, (2) WAC number, and (3) degree square. An index of geographic names follows the text.

Coordinates

Reference to each item by a single pair of coordinates is a matter of convenience in data recall. The coordinates used for reference are those of the southwest corner of the one-minute square in which the item occurs. An exception is made in referring to certain targets, such as roads, where the coordinates of the approximate midpoint are listed in the heading and additional coordinates may be cited in the description if they are needed.
