WARNING

This document contains classified information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive TALENT-KEYHOLE information. Its security must be maintained in accordance with KEYHOLE and TALENT regulations.

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

The Gusev Army Training Area is located approximately 4 kilometers (km) north of Gusev (Figure 1), immediately adjacent to the Gusev Army Barracks Northeast (BE No [REDACTED]). The training area covers approximately 100 acres and is 1 of 2 training areas in Gusev. The area contains 2 flat-trajectory ranges,

a small-arms firing range, a driver-training course, and infantry training facilities (Figure 2). There are 3 additional small-arms ranges in the Gusev Army Barracks Northeast. [REDACTED] KEYHOLE missions covered this target. No change was observed.

DESCRIPTION OF INSTALLATION

Railroad Service

The nearest rail service is in Gusev, 4 km south.

Road Service

Good, all-weather secondary roads and tank trails serve the area.

Small-Arms Firing Range

Area L is a 300- by 35-foot small-arms firing range with earth sides.

Driver-Training Area

Area M contains 1 figure-8 training area, 1 irregularly shaped training course, 2 possible obstacles, and a control building with a tower.

Flat-Trajectory Firing Ranges

Area P1 is a 2,500-foot flat-trajectory firing range with 7 moving targets and an oval track for vehicles. The range is probably used for firing rifles and automatic weapons from the side of an APC, and for firing armored vehicle weapons from fixed positions. The range has 7 firing points and a control building with an adjacent tower.

Area P2 is a 1,200-foot flat-trajectory firing range with 1 moving target and several fixed targets. The range is probably used for firing automatic weapons from fixed positions. The range has 5 firing points and a control building with an adjacent tower.

Infantry or Combined Arms Field Training Area

Area R is an infantry training area containing scattered personnel trenches and emplacements.
