### PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Karachev Ammunition Depot North PUG is located on the northwest edge of Karachev (Figure 1).

The installation, covering approximately 800 acres, consists of a double-secured storage depot and an adjoining support area. The storage depot contains 1 unidentified bunkered building, 5 earth-mounded probable arch-roofed storage buildings, 2 earth-mounded probable arch-roofed storage buildings under construction, 46 probable ammunition storage buildings, 18 storage buildings, 17 support buildings, and 1 unidentified building under construction. The support area contains 1 administration building, 1 possible barracks, 12 storage buildings, and

16 support buildings. A small-arms firing range is located 0.5 kilometers (km) south (Figures 2 and 3).

The installation is covered on KEYHOLE missions and appears occupied on all coverage. The only significant changes observed were the construction of a bunkered unidentified building and construction on an unidentified building in the northern section of the storage area which was first observed on photography. Heavy woods in the storage depot preclude further interpretation.

DESCRIPTION OF INSTALLATION

Railroad Service

A rail spur enters the support area and divides into at least 4 sidings which enter the storage area. Small scale photography and heavy woods preclude identification of all rail spur alignments possibly located within the storage area.

site of the bunkered unidentified building on photography and the building was earth covered. An unidentified building under construction in the north section of the storage area was first observed on photography. Heavy woods in the storage area preclude further interpretation.

25X1D

25X1D

25X1D

Road Service

A primary road provides access to Karachev.

POL Storage Area

At least 7 medium-sized POL tanks are located at 53-08N 034-59E.

Ammunition Storage Area

Area F contains 1 bunkered unidentified building, 5 earth-mounded probable arch-roofed storage buildings, 2 earth-mounded probable arch-roofed storage buildings under construction, 46 probable ammunition storage buildings, 18 storage buildings, 17 support buildings, and 1 unidentified building under construction.

Construction activity was observed at the

Other Buildings

Area H contains 1 administration building, 1 possible barracks, 12 storage buildings, and 16 support buildings.

Small-Arms Firing Range

Area L, located 0.5 km south of the storage area, is a 500- by 60-foot small-arms firing range. Little activity is observed.
