REFERENCES

25X1D

A study of the level of construction activity at Hsi-an Airframe Plant, Yen-liang Airfield, shows that construction of the plant has been resumed after a standstill of almost 2 years.

25X1D

A subassembly building which has been under construction since [redacted] is now completed, and the probable final assembly hall, still under construction, has been enlarged. A workshop on the west side of the plant has been completed. A subassembly building at the north end of the plant and a taxiway from the plant to Yen-liang Airfield are under construction.
