THROUGH: Chief, Requirements Branch, Reconnaissance Group, CGS

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Search for Missile Activity in the Crimean Peninsula, USSR

REFERENCE: (a) Requirement C RR-4-81,002
(b) CIA/PID Project C 186-64

1. This memorandum is in response to your requirement dated 21 January 1964, requesting a search for any missile or missile related activity along the coast of the Crimean Peninsula between Balaklava and Tesseli.

2. Using the referenced report, NA 5901016863 (Nov 63), it was possible to determine the approximate position of the ship from which the observation of the probable missile was made. Therefore, the search area can be narrowed down to a five nautical mile stretch of coastline located about six nautical miles southeast of Balaklava. A thorough search of good quality, clear KEYHOLE photography of [REDACTED] revealed no missile activity along the coastal area between Balaklava and Tesseli.

25X1A 3. The photo analyst on this project is [REDACTED] who may be contacted on extension 2705 should you have any further questions concerning this project.
