MEMORANDUM FOR: Chief, Military-Economics Division, ORR

25X1A

ATTENTION: [REDACTED]

THROUGH: Chief, Requirements Branch, Reconnaissance Group, CGS

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Search for Tactical Missile Range Near Shklo, USSR

REFERENCES: (a) Requirement C-RR-3-80,874
(b) CIA/PID Project C 1789-63

1. This memorandum is in response to your requirement dated 13 December 1963 which requests a search of KEYHOLE coverage within 25 nautical miles of Shklo, USSR (49-57N 23-32E) for evidence of a tactical missile range reported to possibly be in the area.

25X1A

2. KEYHOLE Mission [REDACTED] covered the search area completely with good quality cloud-free photography. A thorough search in stereo for evidence of SSM activity was made for a radius of 25 nautical miles around Shklo with negative results. It should be noted however, that in this section of the USSR near the Polish border literally hundreds of items exist that fit the criteria set forth in your requirement as evidence of a tactical missile range [REDACTED]

25X1B

25X1B

Therefore, if desired, an extensive listing of locations from which it would be possible to fire tactical missiles could be composed, although it would not be possible to favor one area over another as the actual launching site on the basis of KEYHOLE photography alone.

25X1A

3. The photo analyst on this project is [REDACTED] who may be contacted on extension 2079 should you have any further questions concerning this project.

4. This project is considered to be complete.
