MEMORANDUM FOR: Chief, Manufacturing and Services Division, ORR

ATTENTION : [REDACTED] 25X1A

THROUGH : Chief, Requirements Branch, Reconnaissance Group, CGS

FROM : Chief, CIA/PID (NPIC)

SUBJECT : Port Wallut Port Facilities, North Viet-Nam

REFERENCES : (1) ORR Requirements No. C-RR4-81,025  
(2) CIA/PID Project No. C 485/64

1. This memorandum is in response to the above referenced requirement requesting a detailed photo analysis, using comparative photo coverage, of the Port Wallut Port Facilities.

2. Port Wallut is the northern most North Viet-Nam Port and is located on northern side of Ile De Ke Bad (island) at 21°12'N/107°32'E. This port has limited facilities and does not appear to be expanding, as no construction activity was noted.

25X1D 3. The detailed analysis on Port Wallut was made from [REDACTED] 25X1D  
of [REDACTED] which is the only usable photographic coverage from  
25X1D [REDACTED] to date. This mission revealed the port facilities consisting of two  
piers, each approximately 130 feet long, one wharf with approximately 280 feet  
of berthing space, one "T" head pier extending approximately 150 feet from the  
shore line with 400 feet of berthing space across the head of the "T", one  
warehouse approximately 140 by 55 feet, and an open storage area associated  
with the wharf.

Docked at the wharf are two coastal freighters, one is approximately 120 feet long and the other is approximately 130 feet long. The "T" head pier does not have any vessels docked at it and is usable only by small vessels, as the pier is located in shallow water. The two piers, which are associated with the warehouse, each have six "swatow" PF class vessels docked at them.

GROUP 1  
Excluded from automatic  
downgrading and  
declassification

SUBJECT: Port Wallut Port Facilities, North Viet-Nam

4. The numerous buildings lining the coast do not appear to be part of the port facilities. However, their actual function can not be determined from the photography.

25X1A

25X1A 5. The photo analysts assigned to this requirement were [REDACTED] who can be contacted on extension 2547 should any further information concerning this memorandum be desired. This requirement is considered complete.

25X1A
