MEMORANDUM FOR: Chief [redacted] PO432/SPO, NSA

25X1A

ATTENTION: [redacted]

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Search of Novosibirsk and Khabarovsk for High Frequency Antenna Arrays

REFERENCES: (a) Requirement [redacted]
(b) CIA/PID Project C 438-64

1. This memorandum is in response to your requirement dated 20 February 1964 which requests a search within 50 nautical miles of Novosibirsk, USSR for High Frequency antenna arrays similar to those identified at Lapichi, Razdolnoye and Ulyanovka, USSR and described in NPIC/R-60/64 (Jan 64). Also it was requested that an examination be made of a specific communication facility at Khabarovsk (48-34-10N 135-04-50E) for any evidence of construction of this type of antenna array.

2. The Novosibirsk area was searched for a radius of more than 50 nautical miles on cloud-free photography obtained from [redacted]. Although no installations of the type referenced were identified as a result of this search, a communications site similar to a portion of the VLF Goliath site at Vileyka, USSR was identified under construction 70 nautical miles northeast of Novosibirsk at 55-45-30N 84-27-30E. Details of this newly identified installation have been disseminated by cable.

25X1D

3. An examination of the referenced communication site at Khabarovsk failed to reveal any evidence of additional construction activity as imaged on [redacted]. This site consists only of the previously identified curtain antenna arrays and associated control and support buildings.

25X1A

3. The photo analyst on this project is [redacted] who may be contacted on [redacted] should you have any further questions concerning this project.

4. This project is considered to be complete.
