MEMORANDUM FOR: Chief, Resources Division, ORR

25X1A ATTENTION :

[REDACTED]

THROUGH : Chief, Requirements Branch, Reconnaissance Group, CGS

FROM : Chief, CIA/PID (NPIC)

SUBJECT : Search for the Lung-Wang-Miao, Hydro-electric Power Plant, Communist China

REFERENCES : (1) ORR Requirement No. 41-63 (Revised)  
(2) CIA/PID Project No. C-753/63

1. In response to the above referenced requirement, a search of available photography was undertaken in an attempt to locate and describe the reported Lung-Wang-Miao Hydro-electric Power Plant.

25X1D

2. The results of the search proved to be negative. All available photography was scanned for this facility. KEYHOLE [REDACTED] was the best quality, cloud free photography of the search area. A photo-Mosaic of the search area (see figure 2) was prepared for your use as a record of the reported location and its environs.

3. The reported location of the power plant (4255N-12705E) is indicated on both enclosed graphics. There was no indication of any dam nor was there any evidence of any construction activity that could be associated with a structure of this type within a 30 nautical mile radius of the location.

The reported site is located within the reservoir area of the Feng-Man-Tsun Hydro-electric Power Plant and Dam. There is a highway bridge and several small villages clearly visible near the reported location. None of the activity evident in this area, could be construed as construction type.

The reservoir behind the Feng-Man-Tsun Dam is probably still filling up because it has not reached the heights indicated on current maps. The only change observed on the rivers emptying into the reservoir is at the city of Hua-Tien, here the river meanders were re-aligned and a high levee was constructed to protect the city.
