SUMMARY

Osipovich Army Barracks South is located on the south edge of Osipovich (53-18N028-38E), south of the Osipovich-Bobruysk rail line (Figure 1). The installation is not rail served. An all-weather primary road provides access to Osipovich. Osipovich Army Barracks Northeast (AL-1) is located 1.1 kilometers (km) north. Other military installations are also located in the Osipovich area.

The installation (Figures 2 and 3) covers approximately 300 acres and includes one administration building, 23 single-story and seven multistory barracks, six storage buildings, 17 support buildings, four vehicle parks, eight vehicle sheds, three troop obstacle courses, five small-arms firing ranges, an athletic field

and one probable tower.

The area is covered by [] TALENT photography and by [] KEYHOLE missions. Comparative analysis reveals a decrease in the level of activity [] and no change in facilities.

The small arms firing ranges L1 through L3 and barracks areas D2 and D3 appear to be inactive and the level of activity in the vehicle/equipment storage/maintenance areas appears to be reduced.

Track activity and military maintenance of the area indicate that the installation is still active.
