PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

The Kobrin Petroleum Storage Area is located on the northwest edge of Kobrin (52-12N 024-21E), south of the Brest-Pinsk rail line (Figure 1). The installation is served by a spur from the rail line and has all-weather road access to Kobrin. Kobrin Army Barracks Northeast (AL-1) is located 4 kilometers (km) northeast.

This secured installation (Figures 2 & 3) covers 30 acres and contains three large vertical POL tanks, five medium vertical POL tanks, one

small vertical POL tank, six small horizontal tanks, and three support buildings. Within the secured area there are five unidentified circular ground scars in a wooded area southwest of the tanks.

This area was covered by [redacted] KEYHOLE missions [redacted] Comparative analysis reveals a constant level of usage during this period. No significant changes observed.

25X1

DESCRIPTION OF INSTALLATION

Railroad Service

A rail spur from the Brest-Pinsk rail line serves the area.

Road Service

An all-weather road provides access to Kobrin.

POL Storage Area

The area contains three vertical tanks 75

feet in diameter, five vertical tanks 45 feet in diameter, one small vertical tank, six small horizontal tanks, and three support buildings. Small-scale photography precludes measurement of the small vertical tank and of the small horizontal tanks. Southwest of the tanks are five circular ground scars.
