DATE

23 August 125X1

SUBJECT  
AREA: Defensive Missiles

IEG PI NOTICE

DISTRIBUTION:  
WGD & SGD PI's

No. 6-74

TITLE/SIGNIFICANCE:

Probable Signature for SA-9 Training Sites.

COMMENT: These sites were observed at two Soviet barracks areas in [ ] the sites (Figure 1) contained four SA-9 Tels and a BTR-60PB.

One of 25X1

Recognition Features: There are five revetments oriented along the same azimuth. This differs from the SA-6 training site which has four of five revetments oriented in different directions. It also differs from SA-4 training sites which contain only four revetments oriented in the same direction.
