IEG PI NOTICE

No. 22-76

TITLE/SIGNIFICANCE:

TWIN PLATE Station Signatures

COMMENT: In garrison, the transportable troposcatter relay system R-410 (TWIN PLATE), is found in groups of eight vehicles; two antenna trucks each of which carries a telescoping mast, two ribbed double-axle antenna trailers, two generator trailers, a URAL-375 receiver/transmitter truck, and a round-top support van truck. Note: since it has been seen cable connected to the XMTR/RCVR van truck while deployed, the antenna trailer may have an additional function. Additional photo on back.
