3. Comments in regard Paragraph 3 of subject memorandum are as follows:

a. C/MS will attempt to establish field technician slots which will permit rotation.

b. [REDACTED] slots will be considered headquarters slots for purposes of rotation.

c. The recommendations contained in Paragraph 3 c, d, and e of subject memorandum are interpreted as being objectives of the final career program. Paragraph 2 of memorandum governs present policy.

d. It has recently been brought to my attention that an FE Division is desirous, with or without Medical Office approval, of promoting a medical technician in the field from a GS-7 to a GS-9. The question as to how the recommendations contained within Paragraphs c, d and e of subject memorandum would apply, should be answered.
