THE EXTENSION. THE TAXIWAY WHICH PARALLELS THE RUNWAY ON THE SOUTH SIDE IS PRESENTLY BEING SURFACED.

PAGE 3

THE RUNWAY. THE NORTHWEST DISPERSAL AREA IS OPERATIONAL AND CONTAINS
TWELVE AIRCRAFT REVETMENTS WHICH ARE PRESENTLY OCCUPIED BY JET AIRCRAFT.
FOUR AIRCRAFT REVETMENTS ARE ALSO LOCATED ON THE NORTHEAST PARKING
APRON, THREE OF WHICH ARE OCCUPIED BY JET AIRCRAFT. THE SOUTHEAST
DISPERSAL AREA IS BEING ESTABLISHED AROUND A 4,500 FT TAXIWAY (ERRONEOUSLY
REPORTED ON NPIC L-2350 AS 2,100 FT) EXTENDING SOUTH AND PERPENDICULAR
TO THE SOUTHWEST END OF THE RUNWAY. THIS DISPERSAL AREA CONTAINS
TEN AIRCRAFT REVETMENTS AND A PROBABLE PARKING APRON, ALL IN VARIOUS
STAGES OF CONSTRUCTION. IN ADDITION, TEN SMALLER REVETMENTS UNDER
CONSTRUCTION AND SIX OLD AIRCRAFT REVETMENTS ARE LOCATED SOUTH OF
THE AIRFIELD.

THREE DISPERSED STORAGE AREAS ARE LOCATED IN THE IMMEDIATE VICINITY OF THE AIRFIELD. ONE AREA, LOCATED ADJACENT TO THE NORTHWEST AIRCRAFT DISPERSAL AREA, CONSISTS OF TWENTY-TWO REVETMENTS, FIFTEEN OF WHICH CONTAIN BUILDINGS/SHEDS. THE SECOND AREA, ADJACENT TO THE SOUTHEAST AIRCRAFT DISPERSAL AREA, CONSISTS OF TEN REVETMENTS, NINE OF WHICH CONTAIN SMALL BUILDINGS/SHEDS. A THIRD STORAGE AREA, LOCATED APPROXIMATELY ONE NM SOUTHEAST OF THE AIRFIELD AND EAST OF ROUTE 1A, CONTAINS AT LEAST THIRTY-EIGHT SMALL REVETTED BUILDINGS DISPERSED AMONG LOW HILLS.
