10. [Redacted] Met briefly with Pat Holt, Chief of Staff, Senate Foreign Relations Committee, and discussed with him the Abourezk amendment (S. 3394) which amends the Foreign Assistance Act of 1961. In brief, Holt told me it was his understanding the Committee had been assured that these provisions would not in any way affect intelligence activities. He also told me it will be the middle of next month before the bill gets under way so there is plenty of time, but he would like to discuss it further later in the week or next week.
