Mr. Otto E. Guthe, Central Intelligence Agency

Feb. 18, 1957

Mr. John Maktos, Office of the Legal Adviser, Department of State

Map of the Gulf of Aqaba

It would be appreciated if ^{the} section of Near Eastern, South Asian and African Affairs of the Legal Adviser's Office could be furnished with a copy of a detailed map of the Gulf of Aqaba. In this connection reference is made to two telephone conversations between [redacted] and Mr. Maktos.

25X1A

Among other things the map should include, if possible, the following:

1. Dimensions and particularly a sketching of so much of the body of water as might lie beyond the three-mile limit and the six-mile limit from the coast. It is appreciated that the scale would indicate this but it would require measurements which a sketching would render unnecessary.
2. Continental shelf, if any, as well as depth, if possible.
3. Such divisional lines in the water as might be made on the basis of different theories.
