

...the next day that [redacted] discussed with him the matter of [redacted] who is "tied in with UFO's."

12. [redacted] reported that future working group topics may be of interest to LSD personnel. One topic mentioned in particular was research HEW has been doing on acupuncture.

13. [redacted] stated that 1 1/2 to 2 days has been set aside for LSD for the 9th Career Development Course

[redacted]

15. [redacted] reported he received a telephone call on 23 October from [redacted] Security Officer/Lawrence Livermore Laboratory (LLL) of the AEC to inform him that they had just spent two days in the laboratory testing Geller. Forty AEC scientists participated in a month long program to design the experiments which were done over two days at LLL at a cost of \$20,000 for equipment expense. [redacted] said Geller showed unequivocal evidence of paranormal ability under conditions which the LLL project team has certified were fraud and cheat-proof. The data from the experiments is classified and will be sent or shown to [redacted] for distribution in the Agency as appropriate. The experiments included conditions where Geller was continuously monitored by four different kinds of magnetometers, neutron counters, active and passive infrared, normal and low light level video, and motion picture film, both high speed, color and black and white. Most of the monitoring was done covertly in that Geller was not informed of the techniques that were being used to observe him. The highlights of the two days included the bending of metal in hermetically sealed containers, generation of 100 gauss magnetic fields by Geller to selectively erase predetermined portions of HP-65 program cards, and other exercises. Geller will be examined for a second series of experiments at LLL the second week in December and the third week in December arrangements for further testing have been made at NASA/AMES, Moffat Field in Sunnyvale, Calif. [redacted] would like to EMPHASIZE that the above information was received anecdotally from an AEC Security Officer, and not one of the scientists who participated in the experiments giving the above ALLEGED results.

PREDICTION

TEL AVIV, NOV. 1, REUTER - URI GELLER, THE ISRAELI WHO ALLEGEDLY BENDS SPOONS BY THE FORCE OF HIS MIND, HAS PREDICTED WAR IN THE MIDDLE EAST WITHIN THE NEXT SIX WEEKS.

THE ENGLISH-LANGUAGE JERUSALEM POST TODAY QUOTED A SENIOR DEFENSE MINISTRY OFFICIAL HERE AS SAYING THAT MR GELLER CONTACTED THE ISRAELI PURCHASING MISSION IN THE UNITED STATES A FEW DAYS AGO WITH AN URGENT MESSAGE THAT WAR WOULD BREAK OUT IN THE MIDDLE EAST "SOMETIME BETWEEN NOVEMBER 10 AND DECEMBER 12." HE SAID HE WAS NOT YET SURE OF THE EXACT DAY AND HOUR.

THE MESSAGE WAS PASSED ON TO THE DEFENSE MINISTRY IN TEL AVIV.

THE POST ADDED: "IT WAS SUGGESTED THAT IN THE EVENT OF MR GELLER'S PROPHECY PROVING TRUE, HE COULD BE EMPLOYED BENDING SOVIET-BUILT SAM MISSILES USED BY THE ARABS."

SCIENTISTS HAVE AS YET FOUND NO EXPLANATION FOR MR GELLER'S CAPACITY TO BEND SPOONS AND OTHER METAL OBJECTS, THOUGH THEY HAVE SAID IT IS PROBABLY DUE TO AS YET UNEXPLAINED SLEIGHT OF HAND.
