Proposal for Research No. ISU 75-124

SENSING OF REMOTE EM SOURCES
(PHYSIOLOGICAL CORRELATES)

Part Two--Contractual Provisions

ESTIMATED TIME AND CHARGES

The estimated time required to complete this project and report its results is 13 months. The Institute could begin work on receipt of a fully executed contract.

Pursuant to the provisions of ASPR 16-206.2, attached is a cost estimate and support schedules in lieu of the DD Form 633-4. Also enclosed is a signed form complete except as to the "Detail Description of Cost Elements."

CONTRACT FORM

It is requested that any contract resulting from this proposal be written on a cost-plus-fixed-fee basis.

ACCEPTANCE PERIOD

This proposal will remain in effect until 30 July 1975. If consideration of the proposal requires a longer period, the Institute will be glad to consider a request for an extension of time.

SECURITY CLASSIFICATION

Stanford Research Institute holds a Top Secret Facility clearance, which may be verified through the cognizant military security agency, San Francisco Defense Contract Administration Services Region, Attn: Office of Industrial Security, 866 Malcolm Road, Burlingame, California 94010. Staff assignments will be in accordance with the level of security assigned to the work.
