Dear 

STAT

Enclosed for your perusal is a list of the elements in the physical examination. If you think of additional items you wish to include, or if you desire further information on the items listed, please do not hesitate to call. We will, of course, provide a detailed description of the tests along with the analyses, some of which will be available to you before the end of August.

With best regards,

~~6. EMI Brain Scan, Dr. Kramer~~

7. Electroretinogram (Stanford)  
and dark adaptation test

In addition to the above there will be modest charges for my time spent in administrative coordination.

A letter is forthcoming from the Department of Psychiatry regarding their joint participation in the evaluation aspect of the project.

Please advise at your convenience on how you wish to proceed.

Cordially,

  
Robert H. Armbuster, M.D., Director  
Department of Environmental Medicine
