1. I am concerned with the possible security revelations that can occur in the ADS' Daily Diaries. This is particularly true with O/SI, members of which Office frequently visit AFSA and record names, subjects discussed, etc. Very few, if any, individual entries are revealing, but a compilation over a period of weeks might prove extremely revealing. I have discussed this with [REDACTED] who is insistent that any reduction in Diary items as now published be worked out in some other form, if necessary, so that he will not be denied the information he is now getting from each Office. On 10 October, I discussed the above with the Acting Chief, P&L, O/CI, and requested him to make a brief study of this problem and to consider the advisability of a Special Diary from the members of the Special Center. 7
