Memorandum for the Record on Deputies' Dinner

The following matters were discussed:

- a. Improved high-level economic and financial intelligence, particularly from friendly nations and their financial and insurance organizations. It was felt that some special collection procedure would have to be developed and that a special sanitizing unit under direct control of Messrs. Wisner and Becker would also have to be created in order to transmit this type of intelligence. Mr. Becker undertook to prepare a memorandum giving suggestions as to how this might be done.
- 25X1A9a b. Training. [REDACTED] undertook to prepare a memorandum giving suggestions for an amended organization.
- c. Internal Project Review. Mr. Wisner undertook to write up the conclusions of the group. This subject was, however, discussed by DCI the next morning and, as a consequence, the minutes of that meeting will serve as a substitute for Mr. Wisner's memorandum.
