1. At the Deputies' meeting, called the Director's attention to the highly-important item in the CIB relating to Kashani, et al. Later in the day I noticed that this situation was highlighted by a number of extremely gloomy cables from [REDACTED]

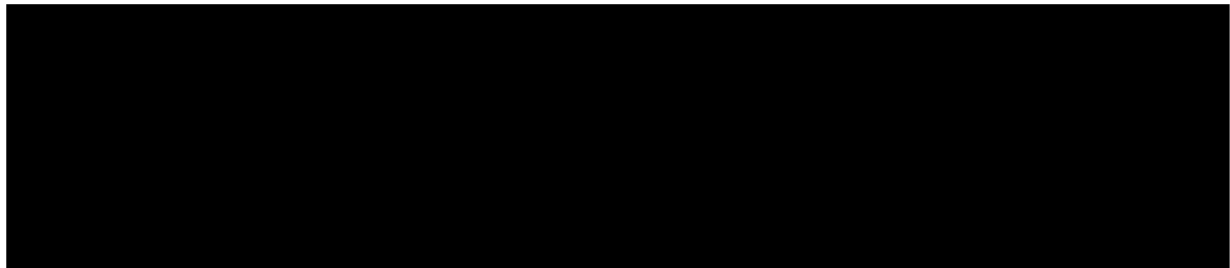

2. Attended General Samford's meeting on the summary evaluation paper. It was agreed that all parties would send suggestions for amendments to Dr. Hoover, all of such suggestions to arrive not later than Wednesday morning. Dr. Hoover will attempt to revise the paper and check informally to see if this revision is satisfactory to the various representatives on the Senior Group. It was the sense of the Group that this should be the first of a series of papers and that the terms of reference for the later papers should be worked out by DCI, with the collaboration of the other interested groups.

3. At the Deputies' meeting, DCI noted that a [REDACTED] had requested to see him. This was obviously related to the Egyptian matter and Mr. Wisner and I briefed the DCI on the background. DCI determined that he would not see [REDACTED] but would refer him to Wisner. I later informed [REDACTED] of this.

6. Met with [REDACTED] to discuss a number of questions relating to [REDACTED]. The following was agreed upon:
- a. With respect to the China project, I would take it up with the IADs and we would expeditiously secure PRC approval, giving DD/P's offices a chance to concur, but not withholding approval in principle too long for this purpose.

Mr. Dulles?

- b. All questions of publication were to be deferred until the return of Mr. Wisner. I expressed to [REDACTED] my sympathy with his views on publication, but said that I felt that it would not be possible to develop this procedure ex post facto.

- c. I again expressed to [REDACTED] my intent to make one or more people available [REDACTED]

7. Met with Dr. Chadwell and Messrs. Amory and Sheldon on the question of relations with AFSA, and I reviewed with them the two aspects of the studies they are engaged on, namely, (1) the nature of the material we received from AFSA, and (2), the nature of the intelligence publications which we put out based in whole or in part on AFSA material.
