MEMORANDUM FOR: Mr. Amory

SUBJECT : Re-Appraisal of Space Requirements

25X9A21. As I indicated at the IAD Luncheon last Friday, the re-study

2. I held another meeting this afternoon with representatives of the offices concerned and, after going over the above facts, there was general agreement that there is no alternative to the OSI move to Barton Hall. OSI seems to be definitely resigned to the move and has been continuing detailed planning with General Services as to its requirements in Barton Hall.

3. I also advised [REDACTED] that a final check with DD/A has indicated that, because of the lack of funds and the general budgetary situation, that it does not appear likely that we can expect provision of any additional air-conditioning units for use next summer. However, we have been assured that 80 of the present units in stock have been reserved for OSI. This will provide air-conditioning for upwards of 60% of the OSI personnel and I made it clear to OCI, ORR and OCD that they might have to relinquish some of their units to OSI to even up the coverage.
