Dear Ted,

Because of the great interest we have in the
25X1A2d99 [Redacted] revived [Redacted] Committee and in the results of parti-
cipation by old and new member agencies in this
matter of general concern, I wonder if I may request
a copy of the verbatim record of the proceedings of
the meeting of 28 June. I was told that CIA lived
up to its customary efficient operation, and had
present a lady with machine, so I hope it will cause
you no trouble to let me see the transcript - if
necessary no more than on loan.

Sincerely yours,

Allan Evens
Director
Office of Intelligence Research
