MEMORANDUM FOR: Director of Basic and Geographic Intelligence

SUBJECT: Participation on a National Academy Advisory  
Committee

1. I have been asked to serve on an advisory committee of the National Academy of Sciences - National Research Council.
2. The committee is advisory to the Interior Department's Geological Survey on geographic applications in the field of remote sensing. Members of the committee, most of which are from the academic world, serve as individuals, not as representatives of their agencies or institutions.
3. Although I would not represent the Agency on this committee, I am known to most members as an employee of CIA.
4. Oral permission to undertake this work was given by the ADDI on 11 September 1967. This memo is for the record.

*Signed*

[REDACTED]  
Deputy Director  
Basic and Geographic Intelligence
