I. OLD BUSINESS

None

II. NEW BUSINESS

A. Agenda Item No. 1: Replacement for the 51-J Receiver.

1. Introduction

The  is discontinuing production of the 51-J series of receivers. A determination must be made as to the receiver or receivers the Office desires to have made OC Standard as replacements for the 51-J.

2. Discussion

In discussing this item it was brought out that before a receiver can be placed on the Standard List it is necessary that a large number of receivers be evaluated, after which the Office recommends to Logistics those which it recommends for inclusion in the Standards List. A considerable amount of time will be required to evaluate prospective receivers before the necessary recommendations, together with substantiating data, can be forwarded to the Office of Logistics.
